

The VetPro® 5000 Dental Station

Compact, worry-free, efficient, flexible.

Introducing a complete, spacesaving dental work station from the leader in veterinary dental equipment.

You don't need a lot of space to have the best veterinary dental solution available.

Replace an existing treatment table or carve out enough space in your clinic for one more. And, this package can pay for itself in as little as seven weeks! Ask us how.

Other options are available. Your dealer and Midmark representative can help you customize a package perfect for your clinic.

Complete veterinary dental solutions for improved animal health.

Midmark's innovative products and services range from dental carts to digital dental x-ray. We partner with you to design more efficient work spaces that are ergonomic, easy to use, low maintenance and are supported by our nationwide service network.

The VetPro® 5000 Dental Station includes:

- VetPro® 5000 complete delivery system with our patented "whip style" delivery mechanism, Acteon® scaler and fiber optics
- VetPro® Solo dental compressor system
- Midmark Treatment Table, exclusively designed for the rigors of the veterinary environment, yet is stylish in appearance

Component Pricing:
